Landon Prewitt
Saifil Ali
John Austen Moreno

For The Moms Iteration 3

Pivotal Tracker: <https://www.pivotaltracker.com/n/projects/1980729>

Github: <https://github.tamu.edu/jam-313/CSCE431-GroupProject>

Heroku Deployment: <http://aggie-mom-boots.herokuapp.com/>

Note: No TDD is being done due to the current iteration being primarily View based and not having any model/controller information.

!!!TDD will be incorporated next iteration

Feedback from Iteration 2: Josiah got from feedback from the moms during the Aggie Ring day, they loved it! They wanted us to work on some of the fonts (make it look more western) and make our questions worded better

To run our cucumber tests: in the console type in cucumber or rake cucumber:all
Or use the run_test.sh that Josiah has provided

We do not have any sad paths due to the simplicity of our project

User Stories information:

Main Website Page - completed

About Us Page - completed

FAQ Page - completed

Gallery Page - completed

Purchase Page - almost done, almost implemented Square API

We were able to implement all the user stories we wanted for this iteration! :)

We added the ADA compliancy story. Americans with Disabilities Act: content should be accessible to all audiences regardless of any impairments they may have

Customer meeting to demo: 4/7/2017

Start of Scrum 4/3/2017:

Format: **What they will be doing**, *What they accomplished*, Roadblocks

4/3/2017

Landon

- **Working on one mode of Square API**

Saif

- **Working on harder mode of Square API**

Josiah

- **Will be code reviewing our incoming code**

John Austen

- **Working on Gallery Page**

Shawn

- **Writing Reviews controller and creating login**

4/4/2017

Landon

- **Working on one mode of Square API**
- The current mode Landon is working on is not secure - to be discussed

Saif

- **Working on another mode of Square API**
- The current mode Saif is working on is a little easier - both modes need to be discussed

Josiah

- **Will be code reviewing our incoming code**

John Austen

- **Working on Gallery Page**

Shawn

- **Writing Reviews controller and creating login**

4/5/2017

Landon

- **Working on one mode of Square API**

Saif

- **Working on another mode of Square API**

Josiah

- **Helped Shawn with Review and Reviews controller**
- For some reason the review and reviews controller do not seem to align with the right post and get

John Austen

Shawn

- **Writing Reviews controller and creating login**

4/6/2017
